

## PCI:DSS Network Monitoring Services

### What is it?

Retailers who process payment card transactions are required to maintain their network security.

Vodat provide a managed solution approved by PCI:DSS QSA's that provides retailers to have periodic scans on their network to identify any critical vulnerabilities and to perform the necessary penetration tests needed to keep their network to the highest level of security.

### The Services

Retailers who process payment card transactions are required to maintain their network security.

The Vodat managed PCI monitoring services are operated from a secure web portal and offer a suite of solutions to assist in interrogating designated PCI:DSS activities as per the following.

#### Log management

Provides log collection and correction to monitor activities inside systems, products and applications.

#### Penetration testing

Provide penetration testing and web application testing in accordance with PCIDSS guidelines.

#### PCI ASV assessment

For an annual subscription we can carry out vulnerability management which allows unlimited ASV assessments.

#### Internal vulnerability assessment

Regular assessments carried out and full reporting provided.

#### Intrusion detection

Validates each intrusion detection alert against the target actual vulnerability allowing qualification against a genuine threat.

#### Wireless access point alerting

Installation of remote antennas across the network enables us to be able analyse and validate the network for rogue access points.

### What will it do for me?

- Our consultancy services will provide you with a full gap analysis and recommendations of areas to be improved.
- Provide you with the tools to ensure that your network is operating to a high level of security and to PCI: DSS.
- Our hosted service removes the responsibility of carrying out the tests from your internal IT department allowing your IT personnel to focus on other business critical services.
- Help you keep your information safe and secure for a fixed monthly cost.

### Why Vodat International?

Vodat International is a trusted partner with both level 1 PCI-DSS and the wider ISO27001 security certification. We are committed to getting the best out of communication technology to derive products and service that deliver tangible value to UK Retailers – it's what we do. We have a pedigree of providing proactive comprehensive service to our clients – you can ask them.
